E-mail: tpriyam60@gmail.com
Mobile: +91-8052233363

Skills

Languages: C++, Java, C, Python, Html, CSS, JavaScript
Frameworks: Django, Flask
Tools/Platforms: MS SQL, PostgreSQL, Git & GitHub, VS Code, Jupyter Notebook Power BI, Excel
Machine Learning: Data Preprocessing, Regression, Classification, Scikit-learn, Pandas, Matplotlib, Seaborn
Soft Skills: Problem-Solving, Effective Communication, Team Player, Project Management, Adaptability

Projects

Online Course Management System | Django, Html, CSS, JavaScript | **GitHub** Feb'26-Mar'26

- Built an Online Course Management System using Python and Django to manage courses, users, and learning resources efficiently.
- Implemented backend functionality with Django and integrated frontend using Html, CSS, and JavaScript to create dynamic user interfaces.
- Designed features for course enrollment, content management, and user interaction, providing a structured platform for efficient online learning.

India Air Quality Index Analysis | Power BI | **GitHub** Nov'25-Dec'25

- Developed a Power BI dashboard for India AQI analysis, visualizing pollutant trends, AQI category and regional air quality patterns.
- Cleaned and transformed large air quality datasets using Power Query to ensure accurate, reliable, and high-performance reporting nationwide.
- Conducted comparative and severity-based analysis to identify high risk cities, dominant pollutants, and seasonal pollution patterns nationwide.

Movie Recommender System | Python, Flask, Scikit-learn| **GitHub** Jun'25-Jul'25

- Engineered a Movie Recommender System using Python to generate personalized movie suggestions based on user preferences and similarity metrics.
- Performed data preprocessing, feature extraction, and similarity analysis on large movie datasets using vectorization and cosine similarity methods.
- Built and integrated the recommendation model into a Flask web application, delivering clean interactive interface for real time recommendations.

TRAINING

Training | CSE Pathshala | C++, OOPs, DSA |**Certificate** Jun'25-Jul'25

C++ Programming: OOPs and DSA

- Strong foundation in C++ programming and object-oriented concepts.
- Proficient in Data Structures and Algorithms for efficient problem solving.
- Enhanced logical thinking through consistent and structured coding practice.

Achievements

NGO & Community Involvement

- Worked with an NGO to serve people in need across education, food, and shelter programs, actively participating in community outreach initiatives to support social welfare. Jul'24

Communication Skill Achievement

- Achieved Second Position in the PEL English Communication Competition. Apr'24

Certificates

C++ Programming: OOPs and DSA | iamneo Aug'25
Cloud Computing | NPTEL Apr'25
C++ Programming | iamneo Dec'24
Data Structures and Algorithms| iamneo Dec'24

Education

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.16 *Aug'23-Present*

RBSSS Unnao, Uttar Pradesh
Intermediate; Percentage: 84% *Apr'21 – Mar'22*

RBSSS Unnao, Uttar Pradesh
Matriculation; Percentage: 90% *Apr'19 – Mar' 20*
